Title: Journal

Author: WisLem

Human tinker ask us
knowledge of metal, for
building device emit sound.
Told of us one of iron,
too unreliable we say.
Needs high maintenance.
Gold pretty, worse than
iron for durability.
Valorite assumed to be
best, however too rare.
Shadow Iron just as good.
Told him to get treated
ore - ore that has been
in a hot environment for
ages, suggested Mont de
Drak Flam. Thanked us
for our information and
left us in peace.
